

Lesson 52 - Tenths and Hundredths

These are all worth the same amount.
one-tenth - $1/10$ - $.1$

Ex.1) $.37$

(say the number and then give it a "last name" which will be the place value of the last number)

Thirty - Seven Hundredths

$37/100$

Ex.2) $7/10 = .7 =$ Seven Tenths

Ex.3) Nine Hundredths = $.09 = 9/100$
