

## Lesson 12 Shapes and Rounding

**EQUILATERAL** — equal sides

**RECTANGLE**

4 Right ANGLES

Square = Rectangle + Equal Sides

## Rounding

Ex.) Round 78 to nearest 10.

- 1.) Find place value to which you are rounding
- 2.) LOOK one place right
- 3.) 1-4 Leave it alone
- 4.) 5-9 Raise it up one
- 5.) All #'s to right turn to zeros
