

Lesson 21

Naming Mixed Numbers

Two forms of money

Mixed Number = a whole number followed by a fraction

Ex.1) $2 \frac{1}{4}$

Ex.2) Use words to write $34 \frac{3}{4}$

Thirty-Four and three-fourths ***notice the word AND! It shows a fraction is coming!

There are two forms of money

1.)dollars - sign is in front of number - decimal is used

2.)cents - sign is behind number - no decimal is used

Ex.3) 81 ¢ or \$0.81

Ex.4) 352 ¢ or \$3.52

Ex.5) 4 ¢ or \$0.04
