

Lesson 28 Division

$$\begin{array}{r} 3 \overline{)15} \\ 15 \div 3 = \frac{15}{3} \end{array}$$

inside# is said first.

Ex .1) Forty-Five divided by nine

$$\begin{array}{r} 9 \overline{)45} \\ 45 \div 9 \end{array} \quad \frac{45}{9}$$

Division is the opposite of multiplication.

$$\begin{array}{r} 3 \times 4 = 12 \\ 4 \overline{)12} \\ 3 \overline{)12} \end{array}$$

To check division, multiply 2 outside #'s to get inside#.

$$\text{Ex. 3) } 7 \overline{)28}$$
