

Lesson 9

Subtraction with Regrouping Expanded Form

* Regroup when you can't subtract a big # from a smaller #!

$$\begin{array}{r} \text{Ex. 1)} \quad \begin{array}{r} \$53 \\ - \$24 \\ \hline \end{array} \end{array}$$

$$\begin{array}{r} \text{Ex. 2)} \quad \begin{array}{r} 56 \\ - 29 \\ \hline \end{array} \end{array}$$

$$\begin{array}{r} \text{Ex. 3)} \quad \begin{array}{r} 56 \\ - 14 \\ \hline \end{array} \end{array}$$

$$\begin{array}{r} \text{Ex. 4)} \quad \begin{array}{r} N \\ - 56 \\ \hline \end{array} \end{array}$$

Expanded Form –
the sum of all the
place values

$$\text{Ex. 5)} \quad 365 = 300 + 60 + 5$$

$$\text{Ex. 6)} \quad 275 = 200 + 70 + 5$$

$$\text{Ex. 7)} \quad 407 = 400 + 7$$
